"If your business grew 30% over the next 12 months, what would break first?"

Growth can hide weaknesses. Join fellow CEOs to pressure-test whether your company can sustain growth without adding risk or depending on a handful of people. A working session, not a seminar.

PEOPLE INFRASTRUCTURE

When growth outpaces your people

Talent, leadership bench, HR that scales, and the employment risk you may not see.

REVENUE INFRASTRUCTURE

When growth outpaces your sales engine

Strategy, process, accountability and the Owner-Dependency Test for your revenue.

CEO ROUNDTABLE

What's breaking, and what's next

A facilitated peer discussion on strain points, key-person dependency and your next constraint.
